

## REEL CAM 60,120m ASSEMBLY AND OPERATING INSTRUCTION

Read these instructions completely before operating this system

Item Description	
Power adapter	110VAC~240VAC 12VDC1800mA
Battery Case	LI-ON BATTERY
Maximum Camera Depth	60/120M Cable
Camera Light Source	Built-in White LED(18PCS)
Camera Angle-of-View	80° (horizontal), 80° (vertical)
Camera Depth-of-View	400 mm (approximate)
Camera Image	Color
Monitor Image	Color
Monitor Picture Resolution	320 (TV Lines)
Monitor Input Voltage	12 Volts DC
System Operating Temperature	-20°to 120°F
METER COUNTER	METRIC & IMPERIAL

# **Specifications**

#### Save this Manual

#### Attention

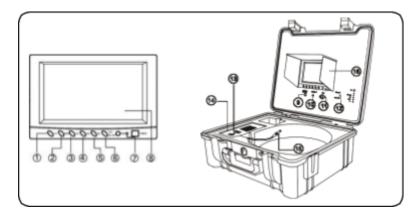

- 1. Read the user manual carefully before using this system.
- Avoid using the device in extremely cold, hot or humid environments, it may damage this device.
- 3. Do not drop or press hard on the device.
- 4. Warranty avoid if the device is opened by users or has physical damage.
- Always back up your date before connecting your USB device to this system. The manufacturer is not responsible for any date damage on your USB device for any reason.
- Do not disconnect the unit while recording or playing. It may damage the unit or the USB device

#### **Application**

WITH AUTO BALANCE CAMERA FOR DRAIN AND PIPELINE INSPECTION.

- 1. WATER SUPPLY
- 2. WASTE WATER
- 3. ELECTRICAL AIR-CONDITION
- 4. CABLE DUCTING
- 5. DUCTED VACUM SYSTEMS
- 6. IN BUILDING

#### Know Your Tool

- 1. AV SELECTOR BOTTON
- 2. MENU
- 3. DOWN SELECTOR
- 4. UP SELECTOR
- 5. MENU UP/DOWN SELECTOR
- 6. MENU UP/DOWN SELECTOR
- 7. POWER SWITCH
- 8. FLAT TFT SCREEN

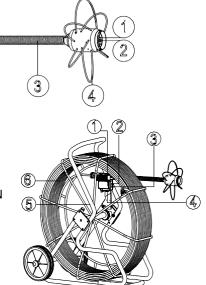

- 9. DC 12V IN
- 10. VIDEO OUT
- 11. CAMERA PORT
- 12. USB PORT
- 13. POWER & CHARGE SWITCH
- 14. AC INPUT PORT
- 15. DC 12V OUTPUT CORD
- 16. SUN VISOR

#### <u>Camera</u>

- 1. WHITE LEDS
- 2. LENS
- 3. SPRING
- 4. SKID

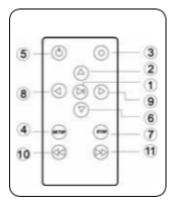

#### Cable wheel

- 1. COUNTER BOX
- 2. RESET BUTTON
- 3. METRIC& IMPERIAL BUTTON
- 4. FEMALE PLUG
- 5. BRACKET
- 6. CABLE WHEEL

#### Remote control buttons (DVR use only)

- 1 Enter: Enter to view and play video or music
- 2 Up: Go to up/previous item
- 3 REC: Start the recording
- 4 Setup: System setup and recording features
- 5 Enter: System in
- 6 Down: Select down/next item
- 7 Exit: Stop or escape from current menu
- 8) Left: Select Left item
- 9) Right: Select Right item
- 10) Rewind: Review video
- 11) Forward: forward video

### System Set-Up

- 1. IMPORTANT: When connecting the Camera to the Monitor the power must be off or both units will be damaged.
- Screw the Camera to the Wheel Cable See Figure 1- A & Connect the Wheel to the Monitor See Figure 1-B.
- Plug the Power Adapter cord into the wall AC socket and other end into the DC 12V-Input Jack, or plug the cord from the Battery Box into the DC 12V-Input Jack See Figure1- C. If use the Battery Case Power, plug the Power Cord of Battery Case into the DC 12V-Input Jack.
- 4. Turn on the **POWER** Switch on the front of the Monitor.

- 2 Power: It indicates system is on
- 3 Recording: It will blink during recording
- 4 USB: It indicates USB device is connected
- 5 Error: It indicates the system or USB device has error
- 6 IR: It blinks when remote control is in use **Recording Video**

The recorded video files will be found in a directory of USB devices.

User can use the on-screen menu or press (REC) button to start recording.

Press (■/EXIT) button to stop recording. During the recording, TV screen will display recording time and time limit (up to 3 hours).

User can press [setup] button to change recording time limit from 1 to 180 minutes. The recorded content can be viewed from computer. See chap 9 for more detail.

### **Recording time limit**

Some users may forget to stop the recording after it is initiated. So the unit has a recording time limit feature, The default time limit is 2 hours. User can go to SETUP mode to increase or decrease the limit from1 to 180 minutes.

### Schedule recording

User can schedule a recording in advance. Simply enable the schedule recording in the SETUP. Then the unit will ask user to setup timing. See chapter 6 for more details.

Recording schedule can be used once. User has to set up schedule again for next recording.

### **Recording to USB device**

The unit is able to record video into USB devices such as USB hard disk .The recorded video will be stored in the USB devices and played back on the TV screen.

#### **Recording format**

The default recording resolution is 640\*480, which takes about 500MB/hour.

User may select 320\*240 to save storage space.

### Video play

User can use on-screen menu to enter "play video" mode. The unit will display

the recorded video and other compatible videos inside USB device.

It will not list the non-compatible videos.

#### Select the video file.

When user enters "play video" node, the set will display all of the available video files on TV screen.

User will use [▲] or [▼] button to select desired video and press [►/ENT] button to play.

Press and hold [▲] or [▼] button to go to previous or next video.

Use [►/ENT] button to start or pause the playing .Use [■/exit] button to stop or go back to previous menu.

The screen will display "loading, please wait ..." for few seconds before playing video.

#### Fast forward and rewind

User can use  $[\blacktriangleright]$  or  $[\blacktriangleleft]$  button on the remote control to fast forwarding or rewinding (1x,2 x,4x, or 8x, speed). Always press $[\blacktriangleright/ENT]$  button to go back normal playing.

#### Compatible video format:

Divx3.11/Divx4/Divx5/MPEG1/MPEG2/MPEG4 (MPEG4 video file format: .avi, .m4v, .MPG, MPEG, .VOB)

### System setup

User can select different standard, recording and other features during the setup.

Also user can upgrade the unit firmware or restore to factory setting.

#### **Recording setup**

Recording time limit: 00:00-03:00(default is 2 hours) Video standard: PAL or NTSC (default NTSC) Resolution: 640\*480,480\*360,720\*480 and 320\*240(default 640\*480) Compression rate: 1000, 1200, 1500, 1800, 2100, 2500KB/S (default 1000kb/s) Sample frequency: 24.32khz(default 32khz) Schedule recording: on/off (default off)

#### Recharge

- Plug the AC cord into wall AC socket & insert the other end into the Battery Box AC jack See Figure2- A
- 2) Press down the charge switch See Figure2-B
- 3) Charge LED will be Red during charging & turn to be Green when finish charging (normally charging time 6- 7 hours).
